

SPECIAL BUNG WRENCH

The special non-sparking bung wrench from EGA Master is designed for the safe handling of drums in areas with explosion risk in sectors such as chemical, petrochemical, and food.

Its robust and ergonomic design ensures a precise and airtight fit, facilitating operation in demanding environments and reducing the risk of accidents.

1. Ideal for opening and closing drums: Suitable for the careful handling of flammable or combustible material drums.

2. Adapts to most common types of plugs.

3. Facilitates the safe handling of drums, preventing the formation of sparks.

4. The hardness is 311-408 Brinell (Cu-Be) and 241-311 Brinell (Al-Bron).
